JANETTE KING

(514)560-6641 | janetteking@proton.me | www.janetteking.dev | <u>LinkedIn</u>

FULL-STACK WEB DEVELOPER

Creative and detail-oriented developer with hands-on experience building and testing full-stack applications. Background in React, Node.js, MongoDB, and content-driven platforms. Strong understanding of accessibility, responsive design, and testing best practices. Seeking a collaborative team where I can contribute to high-quality, user-first software.

CORE TECHNICAL SKILLS

Frontend: React, Next.js, JavaScript, TypeScript, Redux, GatsbyJS, TailwindCSS, Styled Components
Backend: Node.js, Express, MongoDB, Firebase, GraphQL, REST APIs
Workflow & Tools: Git, GitHub, GitLab, CI/CD (basic), Contentful CMS, Webpack
Development Practices: Accessibility (WCAG), Mobile-first, Localization, Agile/Scrum
Soft Skills: Clear documentation, UX collaboration, fast learner, community-oriented

PROFESSIONAL EXPERIENCE

Haply Robotics – Full-Stack Developer
- Montreal, QC | June 2022 – Feb 2024
- Designed and developed an interactive web platform using GatsbyJS and Node.js
- Created a responsive, localized user experience for showcasing products and developer resources
- Worked closely with designers and QA to ensure accessibility and test coverage (Jest)
- Documented development workflows for future dev onboarding

Freelance Full-Stack Developer
- Remote | Sept 2021 – Present
- Built full-stack replicas of modern apps (Twitter, Tinder clones) using React and Node
- Developed unit-tested components with Jest
- Ensured responsive layouts and scalability across devices
- Maintained clean Git workflows and technical documentation for clients

PROJECTS

FitFolio (In progress — 2024)
React Native | Node.js | MongoDB | Jest
- A mobile fitness tracker app built to re-enter mobile dev + testing practice
- Built backend API for workout logging; wrote unit tests using Jest
- Current work: Integrating user auth and adding Cypress E2E testing

Links to Locs (2024)
- WordPress (GeoDirectory) | Php | Community-driven directory
- Designed and built a platform to connect users with Black hair care providers in Ottawa
- Customized front-end and registration flow; added localization and CAPTCHA protection
- Worked with a remote team (PM, designer, backend)

EDUCATION

Concordia University – Full-Stack Web Development Diploma
Completed 2021
Covered React, Node.js, MongoDB, Express, Git, deployment, and REST API design in a project-based environment.
